>>>>>>>

Lynn and Bill,

Attached are documents received from Guy Engineering regarding BIA permitting. It appears that the Special Provision applies to Specifications for Highway construction. Please let us know your thoughts. I do not believe that this information changes our prior conclusions, but would appreciate your input.

Thanks,

Steve

Subject: RE: Osage Mining Permit

This is the special provision that is associated with all projects let in Osage County.

The contractors are responsible for obtaining this permit and paying the associated fees.

ODOT and City of Tulsa do not pay this as a separate pay item. The contractor includes this cost in other items of work.

Thanks!

John E. Blickensderfer, PE, CFM, LSI

Subject: Osage Mining Permit

John – do you have any experience with this? What type of work have you seen performed where the entity had to actually acquire this permit? Cuirious to what extent this is a risk for turbine excavations as well as road work, or even water wells for domestic usage.
